George's New Bag

George goes for shopping with his mother. He wants to buy a new school bag for himself. His old one was now torn from one side and it was time he bought a new one.

At the first shop, they see many bags but George does not like any of them. He wants one with a small pocket in front where he can quickly insert his pencil and eraser at home time.

At the second shop, George found what he was looking for! A bright red school bag with a small green pocket in front and two yellow satchels to fasten

the bag. "This is the one I want", he says to his mom, "My books can easily fit in this"

Mom paid the shopkeeper and they came home. Next day, he went to school very happily with his brand new bag on his shoulders.
