Nancy at the Circus

Nancy is feeling very excited today. She is going to a circus with her parents and younger brother, Alan.

At the circus, they buy tickets and go inside. They meet a clown who hands over five balloons to Nancy. Nancy says, "Thank you". She holds the balloons tightly in her hands so the balloons do not fly away. She gives two balloons to Alan.

Next, they go inside the ring where they see an elephant and a monkey performing tricks. Also, they see a juggler juggling many colorful balls.

After that, they all have vanilla ice cream and then head for home. They had a fun time at the circus.

All the time, Nancy and Alan had taken care of the balloons. They bring them home and tie them to a chair so that they do not fly away.

Nancy at the Circus
