Tony brushes his Teeth

"Eeeeeeeek", shrieked Tony, "This can't be!". Tony was standing in front of the large mirror in the corridor outside his bedroom, with his mouth open wide. And what he saw, he could not believe his eyes.

He had a black spot on his front tooth and could also see a few cavities on the other teeth at the back. His teeth had turned pale and his mouth had become stiff with dryness.

"Oh God, what shall I do?" muttered Tony to himself. He started to shout and panic and then fell down with a big thud. "Huh, where am I?" said Tony. Suddenly he heard his mother's voice. "Tony, Tony, wake up. It's time for school".

Tony got up and realized that it was only a dream. "Thanks God", he said and quickly rushed to the bathroom to brush his teeth.

Next time, he made sure to brush and floss his teeth twice a day, after each meal. After all, he does not want to look horrible!
